

PLAYBACK FORMATS

PADNET can accept shows submitted in the following manner:

- Online at PADNET.tv
- A USB “thumb” drive (do not submit any files other than your show on your thumb drive!)

Your show **MUST HAVE** following formatting or it will not play on the channel:

SD @ 29.97 fps, 720x480, H.264, with 48khz STEREO AAC-LC sound and an extension of .mp4
The audio should be lowered to -12db

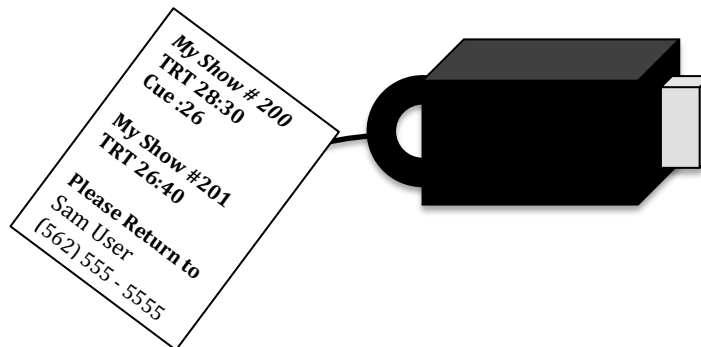

Note: If your video editor cannot output this format, download *Mpeg Streamclip*, available at squared5.com. It’s a free application for both MACs and PCs that will help you properly encode your video.

NAME YOUR FILE AS FOLLOWS:

Title of your show – **Number** of show (if series) – **Subtitle** (if applicable)

EXAMPLE: *Long Beach Happenings 20 Bixby the Seal.mp4*

LABEL YOUR DRIVE AS FOLLOWS:

- DO NOT INCLUDE bars, tone, slate or countdown in your file/program.
- Multiple shows on a thumb drive is OK, but ALL shows on the drive must be labeled.
- Widescreen is ok, but it may be letterboxed on playback.
- Drives must be claimed within 6 months of notification for pick up
