

Exporting your video for PADNET Channel Playback

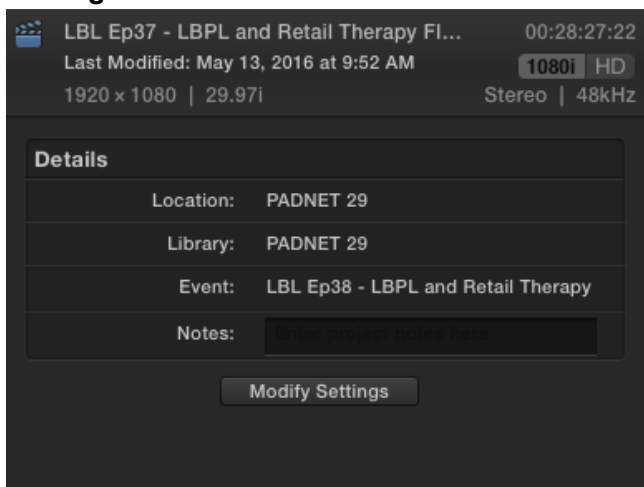

1. Duplicate your project
  - a. Ctrl-click on your project to make menu appear
  - b. Select **Duplicate Project as Snapshot**

- c. Rename the duplicated project

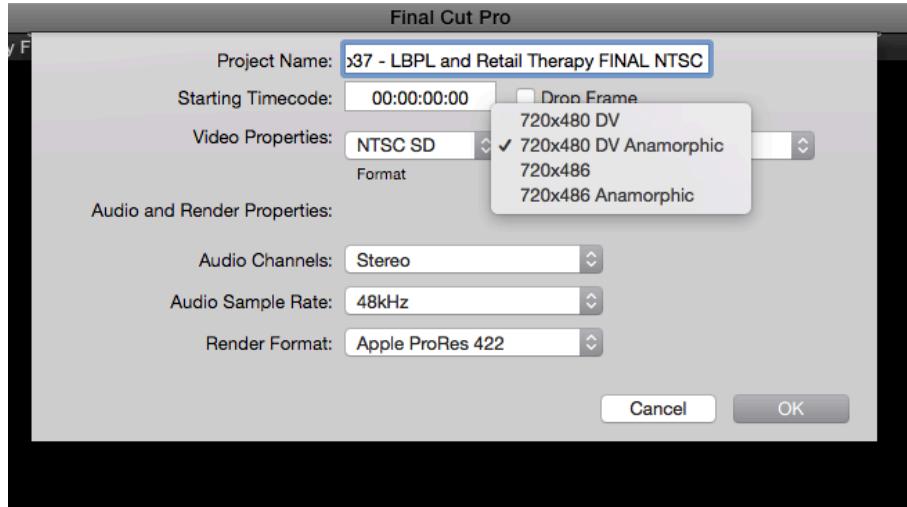

2. With the newly duplicated project selected, go to the Inspector Window and click on **Modify Settings**

3. In the pop up window, select the following specs:
    - a. Format – NTSC SD
    - b. Resolution – 720x480 DV Anamorphic
    - c. Rate – 29.97i

- d. Audio Channels – Stereo
- e. Audio Sample Rate – 48kHz
- f. Render Format – Apple ProRes 422

4. Click **OK**
5. With your project selected, go to the top of the screen and click on **FILE > SHARE > MASTER FILE**
6. A window will pop up. At the top of the window, click on **SETTINGS**
7. Make sure that the settings are set to:
  - Format: Video and Audio
  - **Change Video codec to H.264**
  - Resolution: 720 x 480

8. Click **NEXT**
9. A Finder Window will appear. Search for your external hard drive and select the location where to save the file.
10. Name your video file and click **SAVE**
